SAFEWOOD
DESIGNS

PRODUCT DESCRIPTION

UL 752 bullet resistant wall paneling allows for every building or home to have a safe area. Fiberglass panels are the safest, most cost effective, and efficient ballistic protection for both new construction and remodeling.

FEATURES

- Military grade protection
- Nontoxic materials - no formaldehyde
- Non-Richocheting (captures bullet)
- Durable, Corrosion Resistant, low thermal conductivity
- Panels can be field fabricated
- Suitable for indoor or outdoor applications
- 25% less than the weight of steel paneling
- Rigorously tested to meet or exceed UL752 specifications
- Cut-to-size availability
- Urgent shipping options

TECHNICAL DETAILS

- Ballistic Level 3
- Nominal Thickness: 7/16"
- Nominal Weight: 4.8 lbs/ square foot
- Size: 4' x 8'

BALLISTIC WALL PANELING

SAFESLIDEOUT™

WALL | WINDOW | WALL

PRODUCT DESCRIPTION
The SafeSlideout™ by SafeWood Designs is meant to be an inconspicuous addition to your room cabinetry or decor. The bullet resistant SafeSlideout™ provides protection from UL3 through UL8 and can be finished with plastic laminate (PLAM), wood, dry erase whiteboard or other materials to match your interior design and décor. Used to effectively block the line of sight of an assailant, these work great to cover windows and doors. When paired with the SafeWood Designs bullet resistant wall panel, the system provides a layer of protection in a wide array of settings.

FEATURES
- Available in UL3 though UL8
- Any wood species, PLAM or whiteboard
- Heavy duty slides
- Ships ready to install
