**WOOD LAMINATION & CUSTOM HARDWARE**

**PRODUCT DESCRIPTION**

Violentum Garage Door: An absolute breakthrough in style, safety, and protection! It has been tested to mitigate risks from five different types of threats:

- Bullet Resistant: It has been tested to provide protection against hand guns and long guns. (Levels UL1-UL8)
- Forced Entry Resistant: Rated to withstand forced entry attacks for 60 minutes.
- Explosion Resistant: C4 explosions have been used to test these doors capabilities.
- Crash Resistant: Tested with a 3100lb truck with a 1600lb payload. Successfully stopping at a P1 result.
- Hurricane Resistant: Rated to HVHZ 150 mph winds.

**FEATURES**

- 781% stronger than industry standard.
- 150% larger track then typical garage door track and 160% better track structure then typical track structure.
- Duty Cycle Tested to levels 3,000% to 4,000% higher than the duty cycle recommendation from the motor manufacturer.
- 2 electronic locks that sync directly to the garage door opener.
- 500,000 cycles: Violentum garage door panels have been cycle tested far beyond other garage doors.
- Package includes: Insulated panels, tracks, standard opener, springs, hinges, brackets, rollers, stems and door trim.
